Hey y'all! Be prepared to be Plan B, if Chuck can't do this!
Short notice, but critical to get NRCS on the right track. K

Subject: Fw: TMDL Presentation at NRCS National Leadership Team Meeting

Hi Chuck,
NRCS is giving us air-time at their National Leadership Team meeting next week to brief the State Conservationists on the TMDL.
I think it would be very useful to have a high-ranking individual give an overview of the TMDL (and the rulemaking as well) with Larry Elworth talking about key roles USDA NRCS can play. Would you like to do this?

This could be a great opportunity for you to set the story straight about the inevitability of the TMDL, the rigor of the CB Watershed Model, and the rulemaking process -- all key issues that the national ag industry groups are discussing with NRCS. Larry could focus on key ways that NRCS can support the states in moving forward on all fronts (including aligning standards with what the Bay needs).

Let me know your thoughts.

K
